WHAT IS AI ?
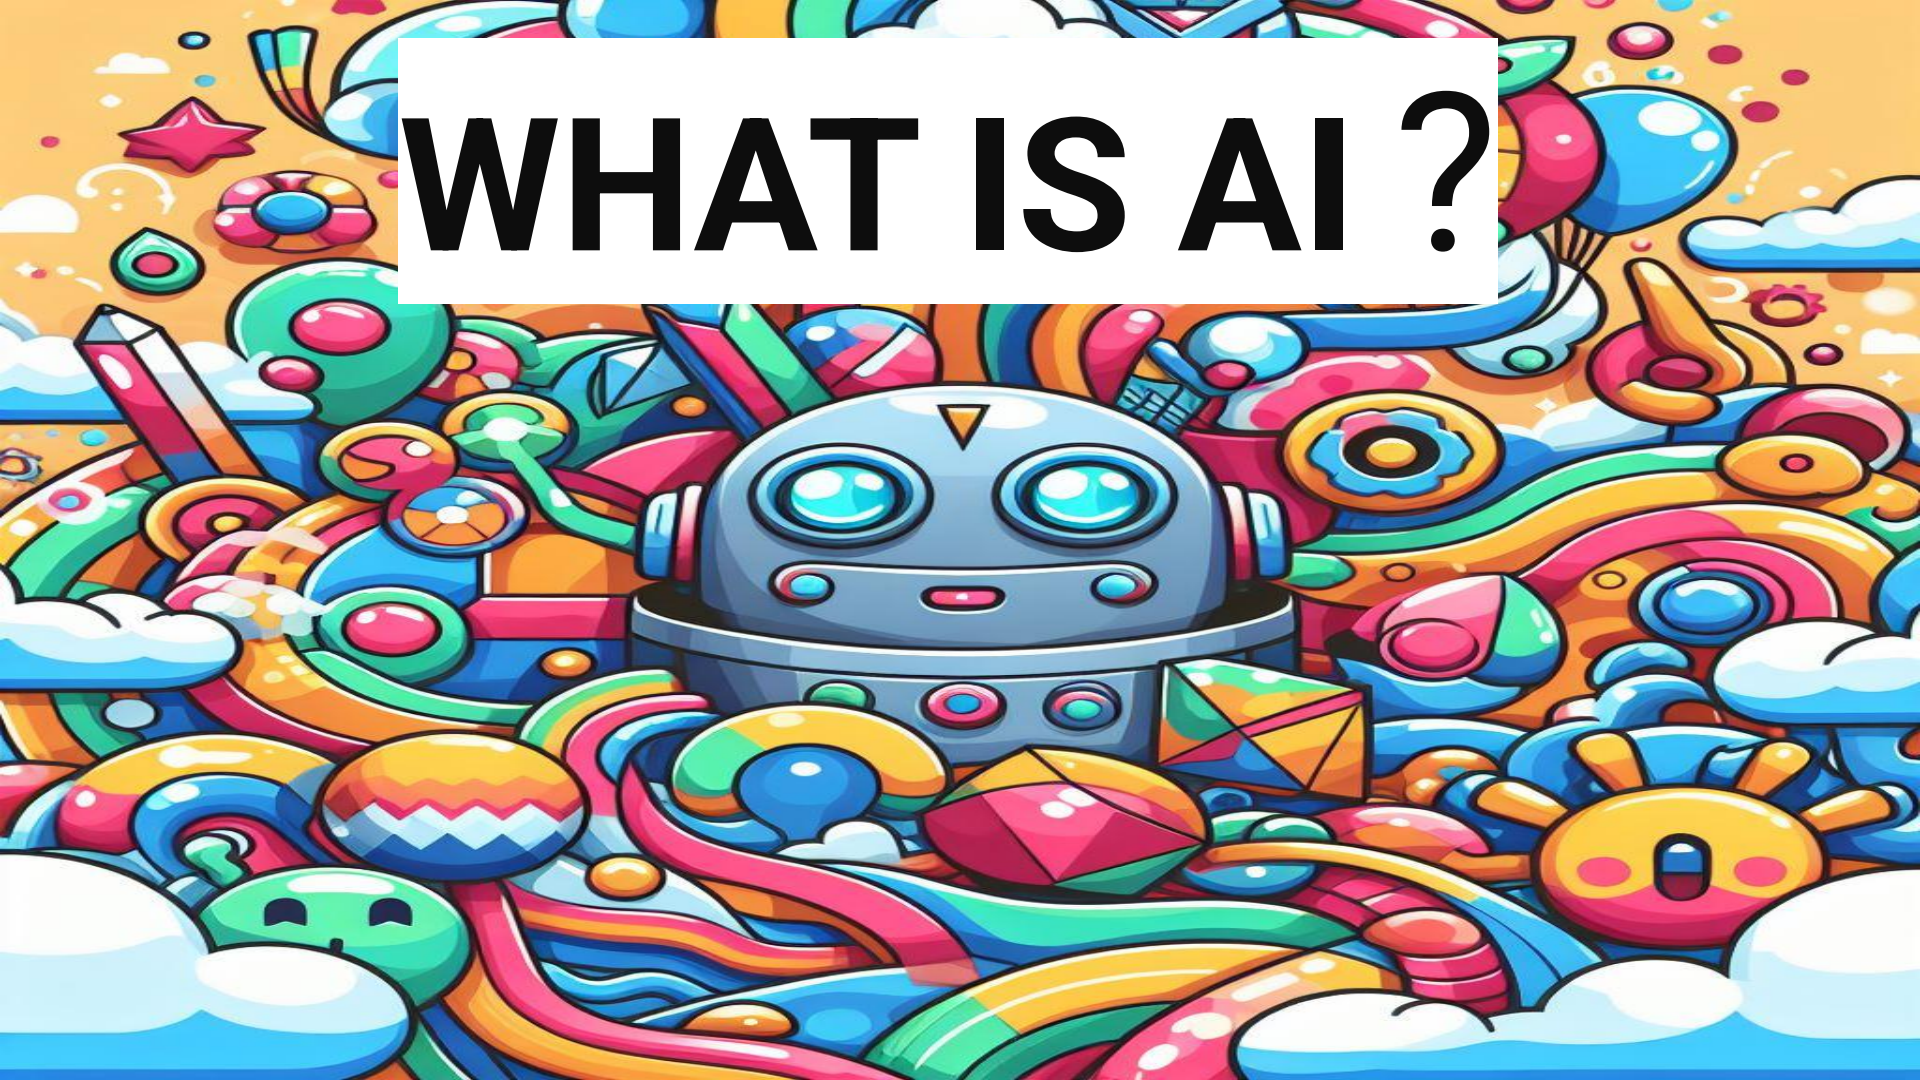

AI, or artificial intelligence, is when we teach computers how to do things that usually require human intelligence, like

Driving a car

Delivering our packages

Amazon's Robotic Future

Smart Assistants

Robots

Who creates AI systems

AI systems are made by scientists and engineers who write code to teach computers how to think and solve problems on their own, like building a smart robot friend!

Missions for My AppleCroft AI Super Heroes

With great knowledge comes great responsibility. As AI Superheroes, you've been given two super important missions that only you can solve. These missions are super, super critical, and we're counting on you, my AI Superheroes, because you're our only hope! You have the power and smarts to make a big difference, so let's save the day together!

Mission 0: Help the Guardians of Grandar to quickly know when their Grandparents accidentally fall

Planet Grandar has a very thick atmosphere, grandparents there have been having a tough time and keep falling down. When they fall, they lose their special powers and can't tell the Guardians of Grandar what happened. Your first mission is to create an AI brain that can tell whenever a Grandparent has fallen. This smart AI will help make sure the Guardians are alerted right away to help them.

PLANET GRANDAR

Mission 1: Help the Brunos build a brain for Cat and Dog Recognizer Bot

Dr. Bruno and his wife can't see very well without their glasses and need help to know if their animal friends are cats or dogs. They need you, the AppleCroft AI Super Heroes, to use your super smart AI skills to create a clever brain for a special robot that can tell the difference between dogs and cats. This amazing robot will help them take care of all the sick pets and make them happy and healthy again!"

What you will need to build the Brain of Your Furry Detecto Bot

Pictures of Cats, Lots of Pictures different types of Cats, brown cats, red cats, grumpy cats, cats, cats,

Pictures of Dogs, lots of dogs, small dogs, browns dogs, dogs with lots of hair, dogs with no hair, dogs,dogs

Since this is your first time building a brain, You will need the help of a Real Live Machine Learning Engineer. Me !!!

I did a lots of Mathematics and Statistics in school college

I studied at Universities in Canada and Sweet Sweet in Jamaica

I work at a Bank, where I build AI brains.

Quickly!! The sky grows dark, our work's not done, With AI power, we'll shine like the sun.
